Health & Safety Advisors

Our Health & Safety Advisors are Forum of Private Business – Certificate enclosed.

Each year we receive an updated Health & Safety Guide and associated templates, flowcharts and risk assessments forms on CD ROM. In addition we have regular updates when regulations are changed via e mail and a Helpline for H&S advice by experts and a legal team.

In addition, this year we have been working with Westminster Compliance at 5 Elstree Way, Borehamwood, Herts WD6 1SF (www.westminstercompliance.co.uk).

Their Health & Safety department have assisted with our application to become accredited with CHAS - Contractors Health & Safety Assessment Scheme.

We are currently negotiating with them to become full time advisors on all aspects of our H&S Management.
