

1A Instalec Ltd

ENVIRONMENTAL POLICY STATEMENT

It is the policy of 1A Instalec Ltd to practise a public commitment towards the Environment. The company recognises its responsibility to install products that meet recognised environmental criteria and to use them in a way that recognises environmental social commitment.

1A Instalec Ltd shall ensure this by fulfilling objectives, which are:

- To use energy and water efficiently and optimise our use of natural resources.
- Minimise waste by evaluating operations and ensuring they are as efficient as possible..
- To encourage modes of transport, which minimise environmental impact, ensure that our staff are aware of efficient driving and examine the operation of our vehicles.
- To ensure that our staff are aware of relevant environmental issues, and of their own roles and responsibilities in delivering the overall programme and providing training for those with particular responsibilities.
- To continue to consider environmental factors and risks in our commercial and charity decisions, alert our customers to the importance of these issues, and direct them to specialist sources of advice.
- To encourage the development of products and services that will help our customers to adopt sound environmental principles and practices.
- To ensure that our key suppliers and contractors are aware of our policy and that wherever possible, they operate to similar standards, as a minimum.
- To continue to provide support for sustainability initiatives that contribute towards the preservation or enhancement of the quality of life in the communities in which we operate.
- We will make environmental objectives publicly available by displaying them at the reception area of our company and by providing the information in written form on request to all relevant interested parties
